FOUNDER'S NOTE

When I started Plasticourt, it wasn't just about building courts — it was about solving a problem I saw repeatedly. Surfaces were cracked, unsafe, and poorly maintained. Players were frustrated, coaches resources were limited, and facilities were burdened with costly repairs.

South Africa deserves better. Everyone from learners to professionals athletes should be able to compete on surfaces that reflect their passion and commitment. That's why we developed our 12-layer CourtGuard Resurfacing System and built a team that refuses to cut corners.

A court is more than concrete and paint; it's where discipline is built, friendships are formed, and victories are earned. That's why we treat every project as if our own children will play there.

— Mark Hibberd, Founder & CEO

ABOUT US

Plasticourt Surface Solutions had become a South Africa's trusted name in hard-court construction, resurfacing, and maintenance. With over 16 years of industry experience and a heritage product developed over 55 years ago, we have set new benchmarks for durability and performance.

We don't just apply surface coatings. We deliver turnkey solutions, ranging from earthworks, hot-mix asphalt bases, fencing, and lighting to resurfacing, hardware, and accessories produced in our in-house engineering department. Every layer and every finish reflects precision, durability, and our belief that all work is done to the glory of God

VISION & MISSION

Vision

To be South Africa's most trusted and innovative provider of sports court solutions — building facilities that honour God through excellence, serve communities, and inspire future generations.

Mission

To deliver premium-quality hard court construction, resurfacing, and maintenance solutions guided by integrity, innovation, and faith — empowering schools, clubs, municipalities, and private clients with safe, enduring facilities.

CORE VALUES

Excellence in Craftsmanship:

We believe that excellence is not negotiable. Every surface, every line, and every finish must reflect precision, durability, and pride of workmanship. Our courts are not just built to specification – they are built to outperform expectations, delivering a playing experience that endures.

Integrity:

Trust is earned through honesty. We operate with transparency at every stage – no hidden costs, no shortcuts, no excuses. From quoting to handover, we honour our word, uphold our commitments, and deliver a level of accountability that sets us apart.

Faith:

Our work is guided by a higher purpose. We dedicate every project to the glory of God, knowing that the discipline, camaraderie, and joy that sport brings are gifts to be stewarded responsibly. Faith anchors our business in resilience and humility.

Innovation:

Our commitment to continually improve drives us forward. We constantly refine our systems and solutions to achieve stronger adhesion, enhanced mould-resistance, and industry-leading durability. Innovation isn't an add-on – it's the DNA of every layer we install.

Safety First:

Compliance is not optional. From OHS standards to staff training, from safety files to certified first-aiders, we ensure every project site is a zero-risk environment. Protecting our teams and our clients' communities is a non-negotiable responsibility.

Client Commitment:

We treat every project as though it were our own community playing there. Whether it's a school, club, or municipal facility, we build for the people who will use the court every day. Our measure of success is not only the quality of the surface but the trust of the client behind it.

After-Sales Commitment:

Our responsibility does not end at handover. Through warranty-backed assurance, scheduled inspections, and rapid-response support, we safeguard the investment long after the paint dries. We see after-sales not as a service add-on, but as the continuation of a partnership that protects performance, safety, and aesthetics for years to come.

Sustainability:

We build with tomorrow in mind. By extending court lifespans, reducing unnecessary waste, and sourcing responsibly, we deliver solutions that are as respectful to the environment as they are resilient on the ground. Sustainability is smart business and a moral duty.

Passion for Sport:

At the heart of our work is the power of sport. Courts are more than surfaces – they are arenas for discipline, teamwork, and transformation. We are driven by the belief that every player, from grassroots to professional, deserves a safe and inspiring space to train, compete, and grow.

HIGH QUALITY PRODUCTS MAKE HIGH QUALITY SURFACES

OUR SERVICES

- Court Construction – Hot premix asphalt bases with layer works designed by a civil engineer. Our average layer works are about 500mm. We also conduct lab testing to determine soil composition, and soil density at critical stages at the layers work process, (see our website for complete specification).
- Resurfacing – The 12-layer CourtGuard system. Acrylic polymer-based, no bitumen used in our surfacing — delivering up to 10 years between resurfacing cycles.
- Customisation – Multipurpose layouts (tennis, netball, basketball, volleyball, handball). Accurate sport-specific markings using custom-engineered tools.
- Hardware, & Accessories: posts, nets, protectors, gates, and removable equipment. Our in-house engineering department fabricates a lot of our hardware in order to keep costs low and quality high for customers

WHAT MAKES US DIFFERENT

- Scientifically Engineered Surfaces – Stronger, mould-resistant, and 25% tougher than competitors.
- No Bitumen – Bitumen cannot bond to acrylic polymers; which is one of the reasons why we don't use it.
- On-Site Precision Mixing – precise weighing and specialised blades (an industry first).
- Skilled & Supervised Workforce – 23+ years' foreman experience; daily oversight by owners.
- Compliance & Safety – OHS files per site, annual staff medicals, first-aid certified, insured, security-checked, legally employed teams in high-vis uniforms.
- Customer Care – Site specific WhatsApp groups with daily updates, weekly reports, post-project guidance, and training.

We use a 12 layer resurface process designed to strengthen and extend the life span of your courts giving you a longer period (up to 10 years) between resurface cycles, dependent on the construction of the substructure and the resurfacing method used.(Details below)

CourtGuard Surfacing System

LAYER	PRODUCT	BENEFITS
1	CourtGuard Stabilizer	Penetrates cracks and strengthens
2	Primer CourtGuard Filler coats	Prepares existing surface for new surface material
3-6	CourtGuard All-weather Surface	Fills in cracks and reduces ponding of water
7-9	CourtGuard All-weather Colour Coat	Strengthen courts, reduces undulation and gives texture
10-12		Gives Colour to and seals playing surface adding strength

GUARANTEE & CARE

- We provide a 5-Year Guarantee on **CourtGuard materials** against fading, delamination, and line fade.
- Not covered: structural base failures (unless we built the court), ponding (bird bath), malicious damage, vegetation regrowth, incorrect footwear, or high-pressure cleaning misuse.
- Clients receive clear maintenance guidelines, recommended tools (rollers, squeegees, blowers), and optional discounted SLA-based maintenance plans.

Plasticourt Surface Solutions

Dear Plasticourt Team,

Letter of Appreciation: Outstanding Service and Craftsmanship

On behalf of Laerskool Tygerpoort, I would like to express our sincere appreciation for the exceptional work recently completed on our premises.

As the principal of the school — with over 12 years' experience on the Gauteng North Tennis Council, a background as a former SA Schools Tennis coach, and more than 20 years as an active tennis club member — I have worked with many service providers over the years. I can say with absolute confidence that **Plasticourt Surface Solutions stands out** for your **superb quality, professionalism, and commitment**.

The final surface finish is of outstanding quality – visually impressive and functionally excellent. What truly set your team apart was your **dedication to perfection**, your **positive and solution-oriented attitude**, and your consistent **attention to detail** from start to finish.

We especially appreciated your punctuality, clear communication, and the pride you clearly take in your work. Your professionalism gave us complete peace of mind and served as a valuable example to our learners and community of what excellence looks like in practice.

Thank you for approaching our project with such integrity and care. We look forward to future collaborations and will gladly recommend Plasticourt Surface Solutions to other schools, clubs, and institutions.

With sincere appreciation and warm regards,

N.J. Coetzee
Principal

Attention: Mark Hibberd Email:

mark@plasticcourt.com

Dear Mark,

Eduvos Midrand Campus Basketball and two Netball Courts, repairs and upgrade.

On behalf of Chessboard Trade and Invest 67(Pty) Ltd the landlord, Eduvos the tenant and M and M Construction the main building contractor, we as architect and principal agent hereby thank you and your team for the professional and competently executed Basketball and two Netball Courts upgrade, repair, resurfacing and finishing work on the Midrand Campus, over the period beginning July through to mid - September 2023.

The landlord requirement was to transform three existing, initially tennis courts, in a neglected, deteriorated state into proper functioning ones. Your supervision and implementation of site establishment, layer works repair, stormwater management, levels, resurfacing, external steps upgrade, finishing colours, markings, posts, nets and boards and complete upgrade of fencing and gates, was well beyond the expectations of the brief and completed to a superior quality.

The Plasticourt management and team were proficient in all site works, materials specifications, handling and application with fair costing and comprehensive keeping of records, to a completion well within programme. Handover of finished product and documentation was professionally conducted.

The students are very proud of their well finished facility and Eduvos management are grateful for this upgraded asset on the Campus.

We are very happy to highly recommend Plasticourt as a preferred specialist contractor for outdoor sports court installations.

Yours Sincerely

Roger Davies Principal Agent and Architect

Laerskool Bakenkop

Bakies speel hul kaarte reg in 2024

To Whom It May Concern,

July 2024

I am writing to recommend Plasticourt for their exceptional services in resurfacing our tennis and netball courts. Laerskool Bakenkop recently had the pleasure of working with Plasticourt, and I am delighted to report that we are extremely satisfied with the quality of work provided.

From the initial consultation to the completion of the project, Plasticourt demonstrated a high level of professionalism and expertise. Their team was attentive to our specific needs and requirements, providing valuable recommendations and ensuring that every detail was addressed to our satisfaction. The communication throughout the project was clear and consistent, which made the entire process smooth and stress-free.

The workmanship of Plasticourt is truly commendable. The resurfacing of our courts was completed with precision and care, resulting in a playing surface that not only looks fantastic but also meets the highest standards of safety and performance. Our athletes and community members have already expressed their appreciation for the improved quality of the courts, which has significantly enhanced their playing experience.

In addition to their technical skills, Plasticourt's commitment to customer service is exemplary. They were punctual, courteous, and respectful of our schedule, completing the project within the agreed timeframe and budget. It is evident that Plasticourt takes great pride in their work and strives to exceed customer expectations.

I highly recommend Plasticourt for any resurfacing projects. Their professionalism, quality of work, and dedication to customer satisfaction make them a standout choice. We look forward to working with them again in the future.

Sincerely, Glen van Pletzen
